

#unteilbar Mecklenburg-Vorpommern
For an open and free society
Solidarity knows no borders!

A dramatic political change is taking place: Racism, anti-Semitism and misanthropy have again become socially acceptable for many. Human rights and queer lifestyles, religious freedom and the rule of law are openly attacked. Europe is gripped by a nationalist mood that is characterised by a lack of solidarity and exclusion. It is a shift to the right that affects us all.

#unteilbar - indivisible – more than 250,000 people followed this call in Berlin in 2018, including individuals, groups and initiatives from Mecklenburg-Vorpommern. We now want to take up this symbol and show the indivisibility of those here in M-V who are committed to a society based on solidarity. Our goal is constant and permanent networking, by bringing together existing alliances and creating new ones. The '#unteilbar'-demonstrations and actions in many cities in Germany made it clear that civil society - despite different perspectives and starting points - stands together. Democracy must be fought for anew every day, democratic structures must be maintained and strengthened. Civil society is called upon to be vigilant.

#unteilbar M-V advocates for a society of the many, for more decisive action to tackle the global climate, biodiversity and sustainability crises, for peace, for social inclusion of all people living here, for artistic freedom. We want global solidarity with refugees and people who are marginalised by our economic system and politics. Housing and mobility must be affordable and sustainable. We envision a crisis-proof social welfare and health care system that is oriented towards the well-being of all people instead of profit, that pays carers fairly and is able to cushion the consequences of a crisis - such as the covid-19-pandemic.

Together, we are working on a future that considers all people, breaks down barriers and leaves no one behind. A future in which diversity brings us together instead of dividing us, in which individual and self-determined lifestyles are a matter of course. In which our natural environment can be experienced by our children's children. We oppose anti-Semitism and every other form of group-related misanthropy, as well as anti-feminism, we are against social cuts and impoverishment. We want to live in an open and free society, in which solidarity with others is a central value.

In the election year 2021, we want to bring these thoughts together loudly and onto the streets. With different events throughout M-V, especially in rural areas. With a large-scale demonstration in compliance with the relevant Corona measures. To make this a reality, we need your support. If we all participate, then we can show: More unites us than divides us!

We are #unteilbar in Mecklenburg-Vorpommern.
